INTRODUCTORY.

The Directory of 1895, the 28th of the series is before the public of New Bedford and Fairhaven, presenting as in the past (only as the publishers believe even more fully and satisfactorily), the names of the residents, the business interests and features of governmental, commercial and social importance as far as the limits included by such works allow. We think the public appreciate our efforts to give them a directory creditable to the enterprising city of whaling renown and commercial and manufacturing importance, and its fair suburb. Visitors judge much of the character and standing of a city by its directory, and the business public find it to their advantage to use its pages freely.

Advertising in a book consulted so constantly as a directory, cannot help bringing profitable results. Many changes of consequence have occurred within a year, rendering an old directory as antiquated and useless as a worn out garment. Enterprising people keep abreast of the times, and that is our motto. Liberal patronage will enable us to render still better service to our constituents.

The substantial growth of New Bedford and Fairhaven, evidencing prosperity even in a season of dulness, is indicated by the following :—

Names in 1895	23,333
“ “ 1894	21,828
Increase	1,505

Appreciating the favors extended by both advertisers and the general public, we shall greet you a year hence with a volume as much more complete as the increase in business, population and local interests generally will call for.

Respectfully,

W. A. GREENOUGH & CO.,

Compilers, Printers and Publishers,

STREETS, COURTS, AVENUES, ETC.

The streets of New Bedford, with a very few exceptions, are laid out north and south, and east and west. Those running north and south are numbered, commencing at Union street, and increasing each way, with the even numbers on the east, and the odd numbers on the west side. Those running east and west are numbered, commencing at the river, and increasing westerly, with the even numbers on the south, and the odd numbers on the north side.

The letters enclosed by parentheses, which follow the name of any street, signify the general bearing of such street from the City Hall. Thus, School street (S.), is south from the City Hall.

LOCALITIES OF INTEREST.

IN AND ABOUT THE CITY.

ACUSHNET. This is a village usually known as the
 Head of the River, about three and a half miles in a
 northerly direction from the City Hall. The westerly

part is in New Bedford, and the easterly part in Acushnet. Pine Grove cemetery is near the village. The post office is in New Bedford.

MOUNT PLEASANT. That portion of our territory known by this name is in the northwest part of the city, commencing at Robeson street. Here are some beautiful private residences, and the view which includes the river, the harbor, the bay, and adjoining shores, villages and islands, is one of the finest in the country.

BELLEVILLE. This name was many years ago given to a spot on the bank of the Acushnet river, about one mile south of the Acushnet village.

CANNONVILLE. A portion of the westerly part of the city, in the neighborhood of the meeting-house on the Smith's Mills road, is known by this name, thus called in honor of one of our deceased citizens, whose labors in behalf of the people there, will long be remembered.

CITY COMMON. This beautiful spot is in the north part of the city, and is bounded by County, Purchase, Pope and Pearl streets. A very handsome monument erected by the city, at a cost of about \$13,000, as a memorial to the soldiers and sailors who lost their lives during the war of the Rebellion, is located here.

CLARK'S POINT. This point forms the southerly part of the city. It has the waters of the Acushnet river on the east, and of Clark's Cove on the west. Its length is about two miles. At its southern extremity on the river side is a large tract of land belonging to the United States; at the extremity of the point, the government has erected an extensive fortification, to which the light-house has been removed. Around this point, a distance of about four miles, is a road not surpassed by any public drive in this country. It is called West French avenue, commencing at Cove street (at the Orphan's Home), and follows the shore thence along the western, southern and eastern boundaries of the point, until it terminates in the street, where it has its beginning. It is eighty feet wide, smooth and level, and in its course commands a series of views of surpassing loveliness and beauty. The cove, the bay, the river, the shores, the islands and ledges, the lighthouses, steamers and sailing craft of every description, the city on the one side, its sister town of Fairhaven on the other and the noble bridge between, constitute a series of views which render a ride or a walk over this road most delightful and attractive. The City Farm and Almshouse is located on Clark's Point. The fort at the point is the only one in the country without a name.

CLIFFORD. A post office about three miles north of Acushnet.

FISH ISLAND. The bridge from the city to Fairhaven passes over this island. Several wharves, an extensive coal yard, an oil factory, a marine railway, and a boat manufactory are located here.

FOUR CORNERS. The space formed by the intersection of Water and Union streets. This has been a somewhat noted spot in our local history. Near this was erected the first village house, and it was long regarded as a business centre.

PALMER ISLAND. Upon which the United States Government has a lighthouse, is at the mouth of the inner harbor. The main channel lies east of it. It affords a good protection from the high southerly winds.

POPE'S ISLAND. This island derives its name from a family long known and respected among us. The bridge between the city and Fairhaven passes over it. It lies nearly in the centre of the river.

ROCKDALE. Is about one mile north of Cannonville, on Rockdale avenue. The only quarry of any size near the city is located here.

SHAWMUT. This is a small village located four miles northwest from City Hall. Evergreen Trotting Park is located here. Until the recent establishment of its post office, it was known as Plainville.

WINTERVILLE. The name given to a small collection of houses at the west of Rural cemetery, on Winterville road. At one time this was quite a flourishing settlement, but is stated to be about one half as large as it was in 1868, owing to the lack of road communications. Added to New Bedford from Dartmouth in May, 1888.

ADDITIONAL PLACES OF INTEREST.

ACHUHSNET MILL BLOCKS. Blackmer street, east of Front.

CHEPACHET. West part of Court street.

CRAFO PARK. On Hickory, Ward and Clay streets. Not officially named, and subject to change.

DOGFISH BAR. The collection of houses near the foot of Coggeshall street is often called by this name, which designates a shoal in the river near by. A bridge crosses the river at this place for Fairhaven.

"DOWN TOWN." The section bounded by Union, Sixth, Elm and Water streets may be regarded as the business centre.

GERMANTOWN. The vicinity of Church street, first settled mostly by Germans.

GRINNELL MILL TENEMENTS. On Acushnet avenue. Bowditch, Logan and Weld streets.

HOWLAND MILL VILLAGE. West of the mills, between Bolton road and Dartmouth street. This is a very creditable village of mill tenements, conveniently arranged and of neat design.

JESSEVILLE. Part of Mount Pleasant and its eastern slope, near Ashland and Linden streets. Named for Jesse Reynolds, a former old resident.

KEMPTON'S CORNER. The corner of Kempton and County streets. The land in this vicinity formerly belonged to the Kempton family.

KENERSONVILLE. West of Purchase street, from Clark to Cedar Grove street. Named for one of the first settlers.

LUND'S CORNER. Junction of Acushnet avenue, Main street, Tarkiln Hill road, in the west part of Acushnet village. Named for the former proprietor of a large tinware establishment.

MARKET SQUARE. Surrounding the City Hall.

MARSH (THE). The low district east of Water and south of Howland street.

NEW CITY PARK. Acushnet ave. near Howard ave.

RIVERSIDE PARK. Foot of Phillips ave. next Acushnet river.

RIVERVIEW PARK. On Acushnet avenue, south side of Nash road.

SMOKING ROCKS. A rocky point on the river near Palmer's Island, where it is said the Indians held council fires. Now on the Potomska Mill premises.

TOBEYS POND. A beautiful sheet of water of about 60 acres, in the extreme northern part of the city. Its surface is 92 feet above the sea level. Sometimes called Sassaquin's pond, from an Indian who lived near it.

TURNERVILLE. Vicinity of Shawmut ave. and Durfee street. Named for an early settler.

WAMSUTTA MILL VILLAGES (TWO). One on Logan and Front streets, and one between Hazard and Austin streets.

WILLIS POINT. At the east end of Wall street.

*Private boxes, for fire on premises only

Police call: 2-22 struck four times. Police will assemble at Station One.

Military call: Ten blows struck twice. Co. E. 1st Regt., will assemble at Armory

No School Signal: Two blows in succession, struck twice, at 8.15 A. M. and 12.45 P. M.

INSTRUCTIONS TO KEY HOLDERS.

Alarms to be given from the box nearest the location of the fire.

Do not give an alarm for a fire seen at a distance

To give an alarm, open the door, pull the hook to the bottom of the slot once, and let go.

After giving an alarm, remain or leave some one at the box to direct the firemen to the fire, and see that no one interferes with the box

Do not pull the hook a second time, or allow any one but an officer to do so.

Never open a box except to give an alarm

The locks are trap locks, and you cannot take out your key until the arrival of a fire engineer with a master key.

GENERAL INSTRUCTIONS.

In case of a call from Fairhaven for assistance, Engine No. 2 will respond, and no other apparatus without special orders.

Should an alarm be given from any box, except box 3, while a portion of the department is engaged at the fire, the return call not having been given, the two engines, one truck, and hose companies nearest the box, will respond.

All second and third alarms will be given by pulling the box in the usual way.

General alarms will be given by striking 21 twice, when the whole department will respond

One blow following an alarm will indicate wire broken or burned off; in which case the companies responding to the second alarm from that box will respond the same as on a second alarm, but not lay hose without orders.

Companies responding to second and third alarms will get one round of box before leaving the house.

Two blows, relief.

ITEMS OF INTEREST.

Fairhaven, bounded on three sides by the waters of Acushnet river, Buzzard's and Little Bays, is admirably situated to meet the wants of those desiring summer houses, as is shown by the increasing numbers who come each summer to avail themselves of the bays' cooling breezes.

This town, formerly a part of the town of Dartmouth, is honored by being the home of John Cook, the first white settler in this part of the State, and the last surviving Pilgrim that came over in the "Mayflower."

The town's early citizens prior to and during Revolutionary times, were intensely patriotic and played an important part in those days on land and sea, to the confusion and defeat of their British enemies. After peace was declared, the energies of the people were directed toward the whaling industry, which was carried on until the discovery of petroleum oil, since when the attention of its citizens has been given to manufacturing, farming and fishing.

A number of places of historic interest are found here, notably, Fort Phoenix, which was built during the Revolutionary war, and which proved to be a tower of defence to the people on both sides of the river. The great natural beauty of its situation, the thousands who gather there to enjoy the sea breezes, all combine to render this place the most attractive of any in this vicinity.

The Old Indian Burial Ground on Little Bay, now owned and protected by the State of Massachusetts.

The spot near the town farm where John Cook built and commanded his garrison during the war of the Revolution.

The old cannon at corner of Central and Main streets, which was captured from the British in 1777, at Nassau, by Fairhaven privateers.

The burial place of John Cook, at the north end of the town. A fitting memorial will be placed here ere long, through the efforts of the Fairhaven Improvement Association, which has the care of most of these objects of historic interest. The association has beautified the town by planting many shade trees, established a plant of 75 bathing houses, a drinking fountain for horses, conducts lecture courses, and looks after town improvement generally, including the care of Fort Phoenix alluded to.

The town of Fairhaven is fortunate in the generosity of former citizens, one of whom, Warren Delano of New burgh, gave the town a beautifully appointed cemetery; while another, Henry H. Rogers of New York, has erected a costly school house, a free public library and a Public Town Hall, all of the buildings being of architectural skill. The population of the town is nearly 3,500.
